

Ultra ESG

By Wrappers
NOI Hackathon

Team

- Alessandro Paladin
- Giovanni Feltrin
- Marco Strada
- Lorenzo Bergami

Project presentation

- Project: Ultra ESG
- Automate ESG data collection and visualization, with interactive interactions and gamification
- Employees will now be the first ones to push for ESG reporting rather than holding back

How did you solve the challenges

- User-first interface
- SvelteKit, Postgres, OpenAI standard (with open source AI models)
- Challenges: convince employees to fill ESG surveys -> solved with gamification and rewarding
