

Camuflon

Manage the time in the office.

What is Camuflon?

«*He is a large, peaceful ape with delicate movements. He has thick silvery fur, long, thin and silky, covering his sad black eyes. **He has the ability to make himself invisible** [...]*»

- Cit. Harry Potter

1. Have statistics about **management of time** in the office;
 - Use of **beacons**, small Bluetooth radio transmitter;
2. Smartphones communicate with this beacons - **privately**;
3. The employer get **anonymous statistics**;
4. Employees can **check by themselves** where they spent most of their time;
 - Maybe realizing they're too much time at the coffee machine?
5. As a camuflon, our product makes **employees invisible**, while their **tracks** are visible

Let's present the team

Jaime Venturini

Claudio Vigliarolo

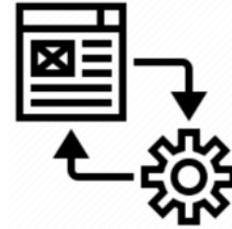

Three different modules

Employer and employee mobile app

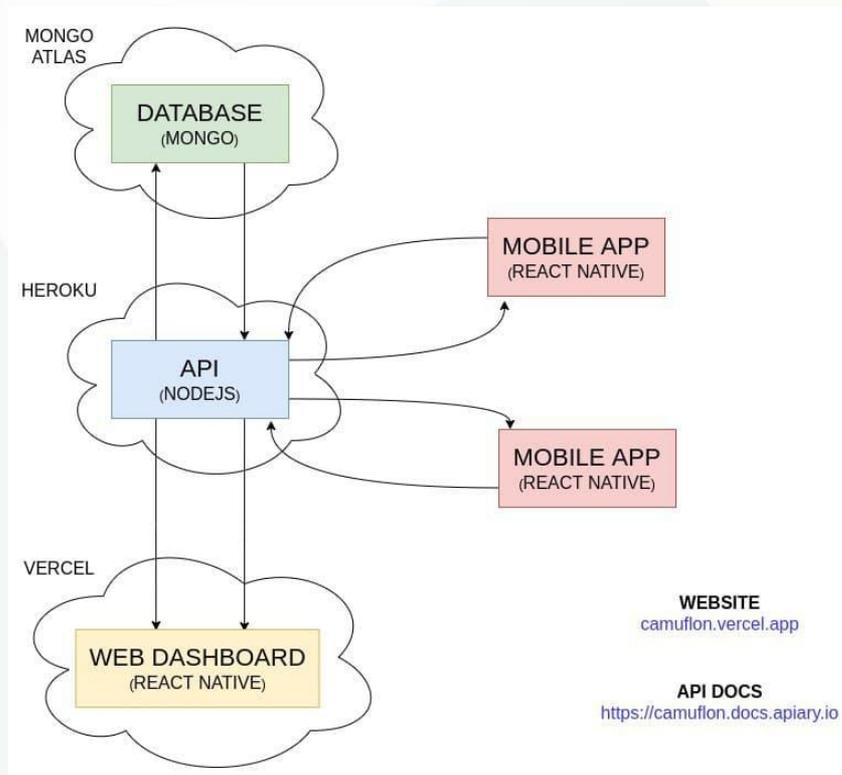

Employer and employee dashboard

Backend

The backend

The mobile app

Please have a look on the other screen and on Claudio while
he's showing you the app

The dashboard

Please have a look on the other screen to see the functionalities of the dashboard

Thank you

Thank you for your attention!
